DETAILED ACTION

Claims 1, 2 and 32 are under consideration.

Claims 3-31 are withdrawn.

Response to the arguments:-

Applicants have amended the claims to recite that it is water soluble and that it contains at least 1 vinyl group and one quaternary amine group.

This limitation does not overcome the prior art.

Konstantinova et al 4 amino 1,8-naphthaliamde containing an unsaturated group have been made and that their ability to co-polymerize with styrene is demonstrated and polymers thus obtained had good resistance to wet treatment and solvents.

In claim applicants R5 can be numerous other groups and R8 has to have a unsaturated group.

Claims 2 does not have any antecedent basis on claim 1.

DE 19505942, US 6248457 or US 6403239. Chen Yun et al does teach similar compounds which have a vinyl group.

DE 19505942 teaches that polymerization takes place via an unsaturated linkage.

Konstantinova also teaches the same thing.

Art Unit: 1625

Even though applicants declaration recites that their compounds have to have a vinyl group there are several prior art references which teach similar compounds with a unsaturated vinyl group. See the abstract Konstantinova et al, which clearly suggests that an unsaturated group have the ability to polymerize and have demonstrated to have a good resistance to wet treatment. Would have motivated a person skill in the art to modify the compounds to have a vinyl group for the R5 or the R8 position, with a quaternary N to obtain the compounds of the instant invention.

.

The examiner called Mr. Martin to explain and expedite prosecution, however he wanted an action mailed instead.

Conclusion

Claims 1, 2 and 32 are not found to be allowable.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
